Florian Weyand

has successfully completed the online, non-credit Specialization

Install and Manage Google Cloud's Apigee API Platform

Apigee's Operations Training is the core training that prepares engineers in the installation and management of Google Cloud's Apigee API Platform in an on premise environment. This certificate indicates the completion of the "Installing and managing Google Cloud's Apigee API Platform" course which is recommended for all Operation engineers working with the Apigee API platform in an on premise instance.
